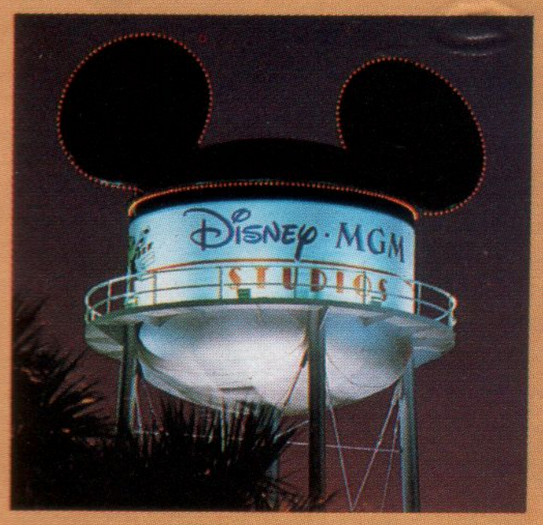
Guess What's Next!

A lot of construction is going on around the Walt Disney World Resort, so you'll have more reasons than ever to pack your bags for a return visit to the World's Greatest Resort.

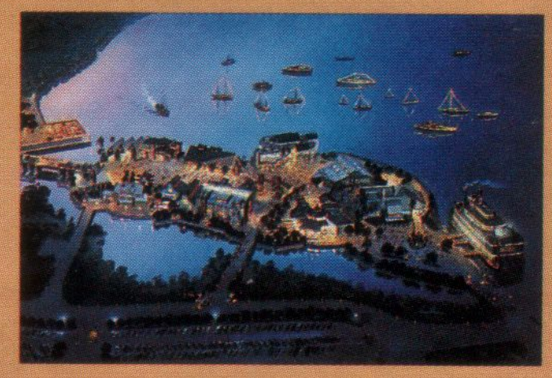


DISNEY·MGM Studios — The Studios will take guests from back-lot construction to actual filming on a sound stage. You'll take "The Great Movie Ride," try your hand at acting, learn about production, animation and special effects. It's "lights, camera, action" all day long for the whole family. Opening Spring 1989. Visit the **DISNEY·MGM Studios Preview Center** now at the Magic Kingdom for a "'sneak preview."

Typhoon Lagoon — This all-new adventure park features the world's largest man-made watershed mountain — 95 feet high — streaming with water slides and roaring rapids up to 400 feet long. A 2½ acre wave-making lagoon and a saltwater snorkeling reef make this a one-of-a-kind adventure for water lovers. Opening Summer 1989.

Dreamflight — In Tomorrowland at the Magic Kingdom, Delta, the Official Airline of Walt Disney World, will present an exploration of the history of aviation from barnstorming days to the present. You'll board the "Spirit of Delta" for this journey through great moments in aviation history. Opening Summer, 1989.*

*Subject to change.



Pleasure Island — This themed, waterfront entertainment center will feature six innovative nightclubs with dining and live entertainment as well as scores of shops — all housed on a six-acre island that was once the mythical empire of a sail-making, shipbuilding entrepreneur: Merriweather Adam Pleasure. Opening Summer 1989.

Wonders of Life — In Future World at Epcot Center, Disney's new theatre technology will take you on a high-speed race against time in "Body Wars," a thrilling view of the human body's immune system. Another attraction, "Cranium Command" will dramatize functions of the brain, and "Fitness Fairgrounds" will present a collection of exhibits and events where you can visit a fun house of the five senses, explore the "Frontiers of Medicine," receive an analysis of your health habits, try out electronically enhanced exercises, and join the theatrical fun provided by "The Anacomical Players." Presented by Metropolitan Life Insurance Co. Opening late 1989.*

Photo Tips from Kodak

For depth, "frame" your photo with an arch or tree branch in the foreground.

To capture details, move in as close as 18 inches with closeup setting on some Kodak cameras.

Personalize pictures of attractions by including friends or family members in the foreground.

To help make a complete picture story, take photographs at the "photo-spot" signs throughout the Magic Kingdom. You can make title pictures by photographing identifying signs.

If you have a 35mm camera, you can photograph outdoor subjects after sundown and indoor subjects using fast films such as KODACOLOR GOLD 400 Film (set exposure meter at 400) and KODACOLOR VR 1000 Film (set exposure meter at 1000).
